

ZIMMER AUSTRIA | Kufstein

Competence Centre for Digital Printing Systems

ZIMMER AUSTRIA Kufstein | Digital Printing Systems is the digital competence centre for textile and carpet printing machines as well as system supplier for carpet coating lines.

Human resources are the core of our success. The Zimmer Academy, our own education division, trains basically mechatronic engineers.

ZIMMER AUSTRIA Kufstein develops in its core competence, new fields of digital printing applications within the carpet and textile industries. Our R&D departments for software, jets, prototyping, electronics and controls are focused on continued market leadership.

The manufacturing department is equipped with the most recent CNC machinery and self-developed fabrication machines.

Delivery Program

- **CHROMOJET**- Digital printer for pile products
