

???? (SUPRAMIX)

markus.breitenlechner / PDF / ??, 07/26/2017 - 11:30

????

????

- This is a dosing and in-line mixing system used to mix and homogenize all kind of chemicals.
- The chemicals are dosed directly into the water stream before the turbine by using precise screw pumps.
- On-line dosing of up to 8 chemicals
- Full yield of thickener
- Air free and lump free stock paste
- Automatical dosing - no manual weighing and measuring

??

- For stock thickener preparation
- To mix and blend all kind of liquids and pastes
